The completed form is sent together with the objects.

Note if priority repair is needed - may be associated with higher cost.

CASE OF EQUIPMENT UNDER WARRANTY: The equipment under warranty may either be repaired, or give issue to a credit note corresponding to the spare parts replaced to repair the equipment, or replaced by similar product.

FLINTAB reserves the right to question the reason for the warranty if the equipment is outside the warranty period or if the equipment is recognised as functional after diagnosis or if it has suffered damage due to abnormal use.

CASE OF OUT OF WARRANTY EQUIPMENT: Equipment that is out of warranty may be repaired at the factory. An estimate will then be issued after diagnosis in our workshops
